

August 29, 2018

Hello,

FIRST DAY

Overall I would say the first day of school was a success. Students were given help: finding classes, working their combination locks, finding their busses. It was certainly hot in the building; but, overall the first day went smoothly.

STAFFING

I want to let you know that Mrs. Suzanne Butkievich is our new Computer teacher.

Also, Mrs. Amanda Sepulveda has taken a job in another school. We have begun the process of hiring a full-time 7th grade special education teacher. Until the new person is hired, Mrs. Brenda Shideler will be teaching 7th grade special education. Mrs. Shideler has been a special education teacher at GOMS for many years and she was gracious enough to teach those classes until our full-time new hire is on board. I anticipate having a new teacher hired within the next few weeks.
